Map Day

Last week, children in Reception to Year 6 enjoyed a map skills day in the wildlife area with Grow to School. They completed lots of different activities and developed their map skills.

Refugee week

This week, children in school have been learning all about Refugee week. In their English lessons, children have been reading stories linked to refugee week and we had a special assembly about it on Tuesday. This year's theme is compassion and the children have discussed what the word means and how it relates to the refugee crisis.

 **Refugee Week**
19-25 JUNE 2023

Ju:mp @ home!

Stuck for something to do? Want to play a game with your children and be active? Try out this week's JU:MP @ home activity - Pickle in the Middle!

PICKLE IN THE MIDDLE
Can you get them out?

HOW TO PLAY
PICKLE IN THE MIDDLE

- > Two people stand about 6 metres apart and the third person goes in the middle - this person is the "pickle in the middle"
- > The two players on the outside throw the ball to each other while the one in the middle tries to catch it
- > If the ball is dropped, any of the three players can get it
- > If the person in the middle catches or recovers the ball, the person who was the last to throw is now the "pickle in the middle".

SUITABLE FOR: All ages
TAKES: 20-40 minutes

YOU WILL NEED:
> A ball and a big open space

REMEMBER This is an activity everyone can get involved in!

SAFETY...
Be sure to find a suitable and safe place to play like your street or in the park

Sharing your news!

We would like to say a huge well done to Cooper and Roman in Lowry class this week!

Cooper got his certificate at rugby last week for player of the match and showing outstanding effort.

Roman was very proud of his Lego baby Yoda he has been working on and he completed it all by himself.

If you have any news about your child's achievements that you would like to share in our newsletter, please speak to your child's class teacher!

Weekly updates

Attendance and Punctuality

Here are this week's attendance and punctuality figures. There is a proven link between attendance and achievement and it is therefore very important that your child attends school and is on time unless they are too unwell to do so. Our doors open at **8.30am** and close at **8.40am**.

Please see the information below for our whole school and class attendance for the week ending **23/06/23**.

Early Years and Key Stage 1:

CLASS	PERCENTAGE %	LATES
Elm	91.6%	2
Willow	91.7%	2
Kandinsky	96.0%	0
Matisse	93.9%	2
Lowry	99.0%	0
Van Gogh	94.7%	0

Key Stage 2:

CLASS	PERCENTAGE %	LATES
Anne Fine	95.9%	3
Roald Dahl	89.0%	5
JK Rowling	95.8%	1
J Wilson	89.3%	0
Elgar	96.3%	0
Mozart	99.1%	1
Beethoven	94.2%	0
Vivaldi	96.5%	2

Congratulations to **Kandinsky Class, Lowry Class, Elgar Class, Mozart Class** and **Vivaldi Class** for having the **best attendance** this week.

Well done to **Kandinsky Class, Lowry Class, Van Gogh Class, Jacqueline Wilson Class, Elgar Class** and **Beethoven Class** for having **no lates!**

94.5%

Communication since the last newsletter

These are the letters, messages and website updates that have been sent out this week. If you have not received any of these letters, please speak to your child's class teacher or contact the office on **01274 639049**.

Website Updates:	National Online Safety - AI Virtual Friends

National online safety

This week, our 'Wake Up Wednesday' guide from National Online Safety is about AI Virtual Friends!

What Parents & Carers Need to Know about AI VIRTUAL FRIENDS

Artificial intelligence – particularly in terms of how it generates natural language – has seen significant development over the last six months, with companies releasing new AI-based software or adding an AI element to existing apps (such as Snapchat, for example). One form of AI to become especially popular has been the 'AI friend' or chatbot, as children eagerly experiment with these new-found computer-generated companions. There are now numerous apps available with this 'virtual friend' functionality, with the likelihood of it being added to other successful platforms soon.

WHAT ARE THE RISKS?

CONTENT AND ACCOUNTABILITY

AI chatbots may not always be able to recognise when content is age inappropriate or harmful and should be filtered out. So there's a possibility that children could be exposed to offensive language or explicit material while conversing with their virtual friend. The companies producing such AI solutions are also unlikely to take responsibility for any content that their algorithms generate.

REDUCED SOCIAL CONTACT

An excessive reliance on chatbots for social interaction could potentially cause a child to begin reducing the amount of face-to-face communication they have, leading to social isolation. If young people become dependent on chatbots to provide companionship, it could very likely hinder the development of their real-life social skills.

LACK OF SENSITIVITY

Chatbot software isn't always sophisticated enough to pick up on subtle emotional cues or recognise signs of distress in children, as most humans would. It might therefore fail to respond appropriately, AI misinterpreting what it's being told or replying insensitively to a young user who's already struggling could potentially impact a child's emotional wellbeing or exacerbate any existing emotional issues.

UNINTENTIONAL BIAS

AI companions are only as reliable as the information they've been programmed with. The algorithms they use, therefore, may unintentionally promote bias, stereotypes or discriminatory behaviour (as many originate from the USA or the UK, for instance, they can display a distinctly western-centric worldview). This could lead to children developing skewed attitudes and behaviours.

COGNITIVE LIMITATIONS

Although many are now undeniably advanced, AI-powered chatbots still have limitations in terms of understanding complex concepts, context and nuance. Depending heavily on chatbots to help with learning or solving problems may stunt the development of a child's own powers of critical thinking, creativity and ability to engage in open-ended discussions with other people.

PRIVACY CONCERNS

Chatbots typically collect data about users, including personal information and conversations. This is ostensibly to improve their performance as they gradually learn about our behaviour – but many experts are warning that there may be significant risks associated with how this information is stored and used (the possibility of potential breaches or misuse by third parties, for instance).

Advice for Parents & Carers

CHAT ABOUT CHATBOTS

If your child is already expressing an interest in AI apps, a relaxed, natural chat should help you to discover which ones they're aware of and how they're using them (or are planning to). Discuss these options with your child and perhaps do your own research to ensure you think they're suitable. Once you're totally happy, you could sit with your young one and begin exploring AI chatbots together.

CREATE A SAFE ENVIRONMENT

If your child is keen to engage with AI chatbots, encourage them to do so in a safe environment: ideally in a shared space at home, so you can easily keep an eye and ear on their progress. Set up appropriate content filtering measures in advance – and gently remind them that you'll be close by and ready to help with any questions or concerns that may arise.

FIND A BALANCE

Work alongside your child to establish the right balance in terms of how they might use AI-powered chatbots – and when it's appropriate. It's important to make sure that children are still getting plenty of opportunities to learn to solve problems for themselves, as well as building their interpersonal skills through face-to-face conversations with friends, family members and teachers.

TAKE CONTROL

As with any form of app or game, when it comes to AI chatbots we'd strongly recommend that you consider employing parental controls (either on the device being used or within the software itself) to manage which apps your child can download and use. This is particularly important for younger children, who may be more at risk of being upset or frightened by inappropriate content.

RECOGNISE THE RISKS

It's unlikely that most children will have even considered the potential risks attached to having a virtual companion. So it's probably wise to explain some of the possible hazards and challenges of AI chatbots to your child. In particular, emphasise that AI isn't a real person (however much it might sound like one) and may occasionally tell them something that isn't entirely impartial or accurate.

Meet Our Expert

A Certified Information Systems Security Professional (CISSP), Gary Henderson is the Director of IT at a large boarding school in the UK, having previously taught in schools and colleges in Britain and the Middle East. With a particular interest in digital citizenship and cyber security, he believes it is essential that we become more aware of the risks around technology, as well as the benefits.
