READING PLANET REVIEWS!

As part of our Key Stage 2 reading scheme, we would like to use our weekly newsletter to help promote and share some of your children's favourite stories that they have read. Each week, we will be sharing book reviews that have been written by your children. Hopefully these reviews will inspire our children to read one of the books when they choose their next one.

Then—Morris Gleitzman (Free Reader level)

I have really loved reading the book 'Then' by Morris Gleitzman as although it was sad in parts it was also full of hope. It is a story about a young boy call Felix and his friend Zelda and the difficulties they have being friends as their families are on opposite sides in the war. My favourite part is when they are in the forest together and they are being chased by the soldiers and they have to try and find somewhere to hide. If you like books with an emotional twist alongside lots of adventure I think you will like this book. I loved it!

Score 10/10

NATIONAL ONLINE SAFETY

This week, our 'Wake Up Wednesday' guide from National Online Safety is all about 'staying safe online this summer'

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many issues which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

10 Top Tips for Helping Children STAY SAFE ONLINE THIS SUMMER

Over the summer our children will, of course, have significantly more spare time now they are out of school. For many youngsters, it may be that a considerable amount of this extra freedom is spent online, using social media apps, video games, streaming services and other digital tech to have fun. For that reason, it's even more important for trusted adults to focus on online safety during the summer break – ensuring that our children are not only aware of the most common threats but also know what to do if they encounter something in the digital world that upsets or disturbs them.

- 1 ENGAGE WITH THEIR ACTIVITIES**

It might not always be convenient, but try to make time to show interest in what your child's doing online. Ideally, get involved – by joining in with video gaming and discussing the apps they're using. It will make your child more likely to come to you with any future online worries or concerns.
- 2 FOSTER CRITICAL THINKING**

Teach your child to question what they see in the digital world. As fake news increasingly uses AI to create believable audio, video and images, it will become even more important in future years to question the content that we see – and to know how to confirm it as true.
- 3 BE A DIGITAL ROLE MODEL**

Take opportunities to demonstrate your empathy and understanding of others online, giving your child a positive template to follow. Watching you being a good digital citizen will help your child to learn an appropriate level of respect for the feelings, thoughts and privacy of other internet users.
- 4 EMPHASISE THE SAFE ENVIRONMENT**

Among the internet's oceans of content, of course, are things which can be upsetting and concerning for young ones. There's always a chance that your child could stumble across inappropriate material, so it's wise to discuss in advance what they should do if this happens. Underline that they can always come to you if something online has worried them.
- 5 FIND A BALANCE**

Communicating and competing online is fun, but shouldn't replace in-person socialising, exercise or being outdoors. Work with your child to find a healthy balance between their online and offline activities. Take into account what they're actually doing online: researching something or cooperating in a game, for example, is more valuable than simply browsing TikTok.
- 6 STAY AWARE**

Keep an eye on your child's online activity and regularly check in with what they're doing. If you have serious concerns, you could discreetly view their browser history. The extent of monitoring should correspond to your child's age and maturity; younger children are likely to need closer observation.
- 7 TAKE (PARENTAL) CONTROL**

It's wise to capitalise on the parental controls offered by most internet service providers and the devices and software that children use. These controls allow you to manage the kind of content your child is able to access, and they can usually be adjusted to reflect your child's specific age.
- 8 TEACH BASIC SECURITY**

It's important that children learn to keep their personal data safe, and understand how strong passwords can help with that. Explain the basics of digital security (showing them examples, if possible) and when they're a little older you could move on to more advanced methods like multi-factor authentication.
- 9 KEEP DEVICES UPDATED**

Ensuring any devices that your child uses to go online have the most up-to-date firmware and software installed is hugely beneficial. Many people put off downloading these regular updates, but very often they contain vital software patches which help to keep your devices and data secure.
- 10 REMEMBER TO HAVE FUN**

Obviously, the digital world isn't without its dangers – but, when navigated safely, it remains an exciting, engaging and educational place. Be mindful of the many risks, of course, but don't let them discourage you from supporting your child to explore and enjoy themselves in the online space.
