

## Geography Home Learning 7.2.23

Today you are going to be learning about the structure of a volcano. First, watch this video all about volcanic eruptions and the structure of volcanoes: <https://www.youtube.com/watch?v=WgktM2lulOk>

Then, using what you know from our lesson last week and what you have learnt from the video, label this diagram of a volcano using the word bank below.

Can you label the different parts of the volcano?

magma chamber

crater

lava flow

ash cloud

secondary vent

volcanic bomb

main vent

layers of lava and ash
